Notice of Fee Increase on October 1, 2004

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2004, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" because an increase in fee effective on October 1, 2004 is anticipated. See Revision of Patent Fees for Fiscal Year 2005; Proposed Rule, 69 Fed. Reg. 25861, 25863, 25864 (May 10, 2004).

The current fee schedule is accessible from WEB site (<http://www.uspto.gov/main/howtofees.htm>).

If the fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due" but not the correct amount in view of the fee increase, a "Notice of Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice of Pay Balance of Issue Fee," if the response to the Notice of Allowance is to be filed on or after October 1, 2004 (or mailed with a certificate of mailing on or after October 1, 2004), the issue fee paid should be the fee that is required at the time the fee is paid. See Manual of Patent Examining Procedure (MPEP), Section 1306 (Eighth Edition, Rev. 2, May 2004). If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously-paid issue fee should be paid. See MPEP Section 1308.01.

Effective October 1, 2004, 37 CFR 1.18 is proposed to be amended by revising paragraphs (a) through (c) to read set forth below. As stated above, the final fee may be a different amount, and applicant should check the WEB site given above when paying the fee.

Section 1.18 Patent post allowance (including issue) fees.

- (a) Issue fee for issuing each original or reissue patent, except a design or plant patent:
- By a small entity (Sec. 1.27(a))..... \$670.00
 - By other than a small entity..... \$1,340.00
- (b) Issue fee for issuing a design patent:
- By a small entity (Sec. 1.27(a))..... \$245.00
 - By other than a small entity..... \$490.00
- (c) Issue fee for issuing a plant patent:
- By a small entity (Sec. 1.27(a))..... \$325.00
 - By other than a small entity..... \$650.00

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Harris on 8/18/2004.

The application has been amended as follows:

Claims 22-29 have been canceled.

Accordingly, claims 1-21 are presented in the application.

Reasons for Allowance

4. Claims 1-21 are allowed.
5. The following is an examiner's statement of reasons for allowance:

Claim 1 claims a surveillance system for controlling at least one position-controllable surveillance device in response to processed surveillance data, comprising: a sensor system including the position-controllable surveillance device to detect the surveillance data including position data predetermined conditions and generate surveillance data; a control and command system operative to retrieve predetermined position data from the surveillance data to generate a position control signal in

Art Unit: 2671

accordance with the position data, and a position-controllable surveillance device responsive to the control signal for adjusting the position of the surveillance device. The closest prior art Seeley et al. (6,069,655) teaches a sensor system (sensors S1-S3; fig. 2) configured to detect predetermined conditions (detecting any intrusions or premises) and generating surveillance data in response thereto (continuously and reliably monitoring one or number of premises; col. 5, lines 49-50); processing system configured to receive the surveillance data (intrusion site data received at the computer is first buffer in a buffer; col. 15, lines 55-57; col. 16, lines 23-25) and incorporate the surveillance data (video buffer) into a surveillance database (a mass memory 402 and 502; col. 15, lines 57-61; col. 16, lines 26-30); however, Seeley et al. fails to anticipate the above underlined limitations. For these reasons, claim 1 is allowed.

Claim 9, the prior art does not teach a surveillance system for providing a position control signal usable by a position-controllable surveillance device comprising: a surveillance data including position data; a surveillance server associated with the memory to receive surveillance data including the position data to detect predetermined conditions to generate surveillance data representative of the detected conditions, and to generate a position control signal for utilization by the position-controllable surveillance device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
